

We're looking for a...

Claims Analyst to join our team.

Just minutes from Silicon Roundabout and a champion of SME growth and development, Simply Business is the UK's largest business insurance broker, specialising in the SME and start-up markets. A challenge to the insurance industry norm, we prioritise the digital experience our products and services provide, as well as an internal culture built around innovation, discussion and an Agile working model. And by 'Agile', we mean an unswervingly efficient, reflective approach. On any given day in the office, you'll find cross-functional teams working on exciting projects, releasing new products quickly to disrupt and revolutionise the marketplace.

Far from fulfilling a musty insurance stereotype, we've created a colourful, collaborative working environment. In our head office in central London, you will find a casual dress code, flexible working hours, and an open-plan office where our CEO works right beside everyone else.

Unlike other companies you will not be a tiny cog in a corporate machine, but a key part of the business and instrumental in its growth. Because we believe that people work more productively and imaginatively when they are free from rigid hierarchy and structures, we keep our start-up roots and entrepreneurialism at our heart. We aim give our people the freedom and support to pursue what really motivates and excites them.

What you'll be doing

- Claims data Management – Providing claims data expertise through analysing MI to identify and explain claims trends.
- Preparing claims reports and statistics for in-house underwriters, insurers and the management team.
- Act as first point of contact for all claims management information requirements and main liaison point for information troubleshooting.
- Building and maintaining claims triangulations and identifying product claims trends to drive performance improvements.
- Project management of improvements to claims service and working with third party claims providers and carriers to implement necessary changes.
- Calculate and forecast potential claims account performance and provide monthly updates to board level.
- Analyse the strength of separate insurer arrangements and interpret commercial agreements to make recommendations.

Skills we need

- Highly numerate and analytical with strong attention to detail
- Comfortable working with large amounts of data and the ability to identify what is important, what could be wrong and putting in place solutions quickly.
- Strong Excel skills
- Proven commercial / business experience
- Strong communication and team skills

Skills we'd like (desirable):

- Experience of working within the insurance industry

What we can offer

Competitive Salary
Flexible Benefits package including: private healthcare, dental insurance and gym membership
An opportunity to learn & develop in a growing business.
A social working environment

Where we are

Moorgate, London
